

Excess Flood

Excess Flood enables you to offer higher coverage limits to your clients, so that in the event of a catastrophic flood event, your client may be better situated to recover from the loss.

Help cover your client's exposure

- Coverage for Residential and Commercial properties
- Coverage up to \$5MM (building and contents combined) for structures with replacement cost value up to \$15MM
- Available in all states except AK, DC and KY.
- We offer coverage for all residential risks except condominiums
- Terrorism available for Non Residential and Other Residential risks

Excess Flood available up to \$5 Million* above the NFIP for residential and commercial policies

Almost 40% of homes in the U.S. are valued above the National Flood Insurance Program (NFIP) maximum payout of \$250,000. This may leave homeowners exposed after a catastrophic flood.

Why sell Excess Flood?

Current NFIP limits

\$250,000 for residential buildings and \$500,000 for commercial buildings sometimes just isn't enough.

Unique commercial coverages

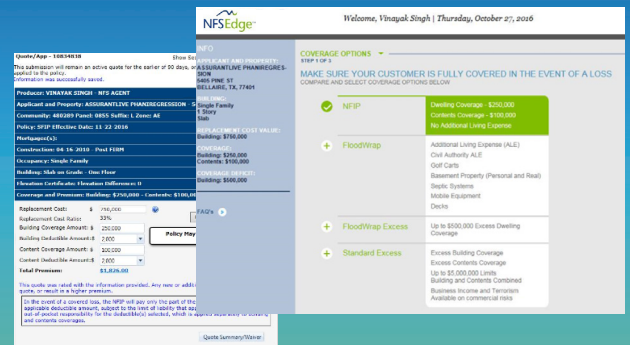

Terrorism Coverage available for Other Residential & Non-Residential Risks.

Why do it now?

No waiting for rate indications. Do it immediately online.

Making it Easy

NFS Edge has an advanced automated flood rating portal embedded into your flood insurance processing website. Because it's integrated, the insured information is already captured, allowing for quick display of a rate indication.
